

POLARPLAY CHANDELIER

COLLECTION 2017

While it opens up a world of design opportunities, LED requires a different approach than conventional lighting. Compared to traditional fixtures, the focused and dense light of LED calls for multiple light sources instead of one.

VANTOT

POLARPLAY PENDANT SPECS

CODE	#295 - PENDANT
LIGHT SOURCE	Led 12 W
*every bulb	2700 K 1200 lm CRI 80
PRODUCT USE	Indoor
DIMENSIONS per element	360 x 150 x 660 mm (l x w x h)
MATERIALS	Cuttet and coated copper.
FINISH	 Copper
LED DRIVER	Meanwell PCD-16-350B 200-240 VAC 0.20 A 50/60 HZ 277 VAC 0.15 A 50/60 HZ Max. 40 W Tronic dimmable, Casambi dimmer suggested.

DISCOVER

VANTOT works in translating innovative and experimental ideas into refreshing applications, products, and installations. Sometimes, products are made on request as a project. We are specialized in lighting and also creating other products in different categories which will be shown in the following content.

VANTOT

For Dutch duo VANTOT, it's all in the name. Literally translated from Dutch to mean 'from to', VANTOT focuses on the entire process, starting with a technique and ending with the product. The pair strives to find new applications for innovations in everyday life, and it's not only new-found technologies which have seized their interest. Serving as a guiding light in the duo's work, antiquated techniques are put to good use in modern day outlets, mutually benefiting from today's updated knowledge base.

Take electricity. Although light bulbs have been around for centuries, innovations – such as the rise of the LEDs – have made continuous evolution possible. And today, electronic devices operate on much lower voltages than ever before, significantly decreasing its hazardous aspects. While direct contact with electricity – and light – used to be a no go, recent developments illuminate completely new realms for the old technology.
