

V-V-V

PRODUCED BY DCW EDITIONS

Take electricity. Although light bulbs have been around for centuries, innovations – such as the rise of the LEDs – have made continuous evolution possible. And today, electronic devices operate on much lower voltages than ever before, significantly decreasing its hazardous aspects. While direct contact with electricity – and light – used to be a no go, recent developments illuminate completely new realms for the old technology.

You can create large space-separating light curtains with the modular LED light concept V-V-V. Its modular design uses bare, anodised aluminium elements suspended between stainless steel cables. Each element consists of 4 LEDs that have been sandblasted to soften the emitted light and clip directly on to the conductive wires.

Start with a base module and add as many rails, wires and elements as you like, positioning them in whatever pattern you prefer. Use a single base module with a few elements as an elegant solitary light column, or combine multiple rows to create a striking light curtain for partitioning your space.

V-V-V SPECS

CODES	#219 V-V-V RAIL (CUSTOM)
	#226 V-V-V STARTER
	#233 V-V-V PLUS
	#523 V-V-V MINUS
	#721 V-V-V SILVER MODULE
	#172 V-V-V CHAMPAGNE MODULE
	#189 V-V-V COPPER MODULE (CUSTOM)
LIGHT SOURCE	LED integrated
	230V
	2W (8 X 0,25W)
	2700 K
	200 lm CRI 85
DIMENSIONS	570 x 355 x 20 mm (l x w x h) Package 645 x 440 x 75 mm (l x w x h)
NETTO WEIGHT	0,4 kg
MATERIAL	Anodized Aluminium Copper
DIMMABLE DRIVER	12V 60W, dimmer not included

COMPOSITIONS

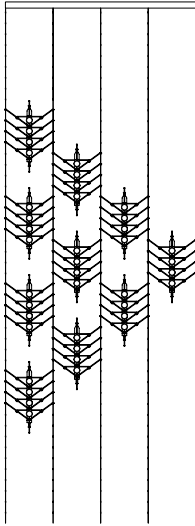

V-V-V gives you endless possibilities in compositions. Choose the number of modules and suspension wires to your wishes and vary in shapes and sizes. Also it is possible to add modules and wires to your collection in a later stage due to the modular railsystem.

DISCOVER

VANTOT works in translating innovative and experimental ideas into refreshing applications, products, and installations. Sometimes, products are made on request as a project. We are specialized in lighting and also creating other products in different categories which will be shown in the following content.

VANTOT

For Dutch duo VANTOT, it's all in the name. Literally translated from Dutch to mean 'from to', VANTOT focuses on the entire process, starting with a technique and ending with the product. The pair strives to find new applications for innovations in everyday life, and it's not only new-found technologies which have seized their interest. Serving as a guiding light in the duo's work, antiquated techniques are put to good use in modern day outlets, mutually benefiting from today's updated knowledge base.

Take electricity. Although light bulbs have been around for centuries, innovations – such as the rise of the LEDs – have made continuous evolution possible. And today, electronic devices operate on much lower voltages than ever before, significantly decreasing its hazardous aspects. While direct contact with electricity – and light – used to be a no go, recent developments illuminate completely new realms for the old technology.
